Conshohocken, PA 19428

Wednesday, May 23, 2018
at 3 pm and 7 pm

Greater Plymouth Community Center
2910 Jolly Road
Plymouth Meeting, PA 19462

An Idea Exchange on an Essential Township Building

Since 1970, the Plymouth Township Municipal Building has served as a central hub for township services and law enforcement. In the early days, 60 people worked within the 27,500 square foot building; today it houses nearly 100 employees, including police officers on duty 24 hours a day, seven days a week.

Now nearly 50 years old, the building is in desperate need of renovation to ensure safety and compliance with environmental and accessibility standards.

Options for funding this project require diligent research, and public input.

Township Council invites you to join us to share your insights during a series of meetings titled “Reaching Out, Planning Ahead.”

During these meetings, we will examine the following:

- Current conditions of the Township Municipal Building
- Renovation options being considered
- Options for funding this project without raising taxes, including the possibility of selling the Township sewer system.
- Next steps

Please mark your calendar and join us. Your input is a vital part of this process.

Also, stay abreast of the project by following updates on:

www.plymouthtownship.org and on Facebook.
